Early Steps

From 1991 *Edu-fun* has grown from a small workshop to an international Factory.

The idea of establishing a factory to produce furniture and other educational needs began with the establishment of the Manarat schools, to fulfil the need for schools and educational establishments. The 1st educational supplies factory in Egypt started in 1991 on an area of 1,000 m². With the aim of providing the furniture and educational needs for the Manarat schools and those associated with them. Due to the excellent quality of our products there was an excessive demand from local schools and international representatives. The area of the factory has grown to 15,000 m² and we export our products to the Arab world, Africa and some European countries.

Edu-fun has been proud to equip a large number of schools kindergartens and educational institutes in the area since 1991.
