About Us

Since it's established in 1991, edu - fun is providing children around the world with toys that stimulate their imagination, increase their knowledge and enhance their mental and physical development. We believe that a toy should not only be for plaything but an important tool in the development of a child's self confidence, intelligence and creativity. Our toys are designed by specialists who understand child development and how toys can stimulate that development at each stage of a child growth.

We use only the best, natural, high quality materials which include European beechwood and German paints and varnishes. All the different stages involved in the making and packaging of our high quality products are carried out in our own existing factory and in our new second factory.

We pride ourselves on our high quality products which must all pass the highest standards in quality and also rigid safety standards. Safety is ensured by all our products complying with the European Norms EN71 .

Safety is Our Priority

Infants & Toddlers

From the very beginning of life, children's curiosity is insatiable. They want to see, touch, taste and explore everything around them. What better than providing them with the tools to guide them in a safe, enjoyable way. We at EDU FUN have the educational toys that are suitable to keep even the busiest of minds and hands satisfied as they explore their world.

Educational Toys

The early Pre-school years before formal education are the most formative for children. Their little minds are wide open and ready to accept any knowledge and information that they are subjected to. EDU-FUN believes that enhancing and advancing children's development during these crucial years is essential to build up strong foundation for a life-time of learning success. EDU-FUN has designed products for both pre-school and older children to help them explore and discover their world.

Letters & Numbers

It's essential when your child begins to learn the letters & numbers of a language that he does it in an enjoyable way. This could be done in many ways but what could be easier and more fun than learning the alphabet and numbers the EDU FUN way! We have a variety of games & puzzles to help your child recognize his letters and numbers in an easy and delightful way. We'll stay with him step by step, starting from the basic abacus to telling the time and from recognizing letters to forming words.

Arabic Products

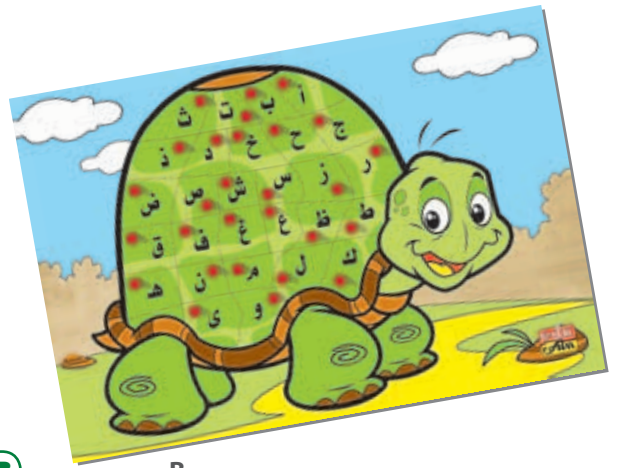

As a first time, edu fun presents a separate catalogue specialized in Arabic products, aimed to Arab and non-Arab children whom Arabic is either their first or second language. It's a step to portray the culture and heritage of Arabs and Muslims and presents them in an enjoyable and fun way. Children can have great time in learning about their culture as well as about the Arabic language.

Oriental Products

The oriental heritage is a magical world, full of interesting items that made it a subject for studying therefore the heritage has become an inspiration for designers which is shown in their designs, and as children are the centre of our attention therefore we have used the heritage in the educational process. We have designed toys with oriental style to express our ancient culture, through which children will discover the world around them and give them a chance to develop their abilities and expand their experiences.

Dramatic Play

Step into the world of a child's imagination, playing house, going shopping, having a tea party for a favorite teddy or playing doctor for an injured doll. Children have a very clear sense of imagination and dramatic play tools enhance this sense at the same time breaking down walls of shyness as they role-play different characters. Whatever the game of pretend they've conjured up we have the toys, kits, puppets and scaled down models which help their imagination to come alive.

Montessori Products

Complement with the company supporting to the educational process and providing the best for children, we produced the aids and tools for what is known as the philosophy of «Montessori» in education. Montessori method was established by Italian medical doctor «Maria Montessori» in 1907, through her careful observation for the children and how they learn in nature. As a result of her research and scientific studies many educational tools was designed to help children learn difficult and advanced concepts easily. We are proud to add this unique variation to our educational wooden toys and supplies with our high quality that always characterized the company.
